 Beaverton, OR

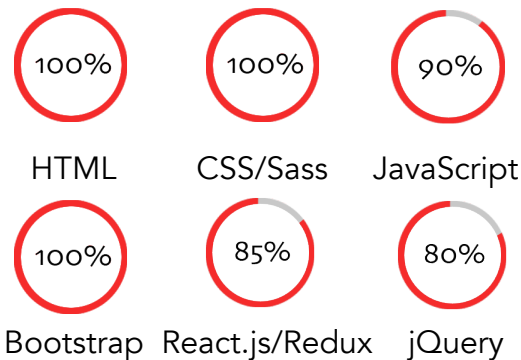

## SUMMARY

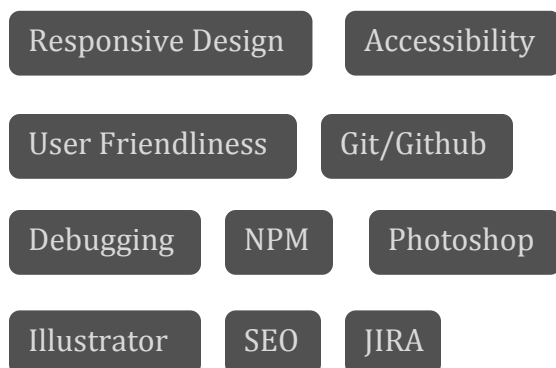

Enthusiastic and eager to grow, I am interested in front-end web development and everything in its bounds. As a recent undergraduate, I have immersed myself in creating clean and creative content for clients and businesses in variety of fields. On this journey, I have launched numerous websites from initial design to completion of the responsive and innovative product. If given the opportunity, I would offer my full commitment, and be a pleasant and friendly addition to your team.

## SKILLS

### Programming Skills

### Other Skills

## Education

California State University,  
Northridge

- Major – Art
- Minor – Computer Science

## EXPERIENCE

### Freelance Developer

- **Buddy Jane:** <https://www.buddyjane.com>
  - Solely spearheaded the website for a brand new app. With enhanced user experience and simplicity, maximized app endorsement.
- **iTrainUwin:** <https://www.itrainuwin.com>
  - Informed customers of client's service and experience. Boosted profits by generating 75% more customers in a week.

### Internship

- **META+Lab:**  
<https://www.sandbox.csun.edu/faculty/steven.fitzgerald#/>
  - Produced the Cal State Northridge Faculty Page. Refined student/faculty connections by establishing improved UI & UX.

### Personal Projects

- **DevelopMT:** <https://www.developmt.com>
  - Launched personal business site to attract clients. Expanded clientele and generated revenue.
- **Profits:** <https://profits.netlify.com>
  - Completed a site for organization and analysis of income, targeting those with a list of paying clientele. Expanded knowledge of income and time efficiency by monitoring schedule and pay.
